SUMMARY

A Freelance Software Developer with a proven track record of developing custom software solutions for clients, specializing in web and application development. Experienced information technology specialist who has contributed significantly through network troubleshooting and support tasks. Leveraging a strong foundation in software programming and IT experience to effectively create innovative software solutions in a development role.

SKILLS

- **Programming Languages:** Python, JavaScript, Java, HTML/CSS
- **Frameworks & Libraries:** React, Node.js, Express.js, Flask
- **Databases:** MongoDB, MySQL
- **Tools:** Git, Docker, VS Code, Postman
- **Software Development:** Agile methodologies, RESTful APIs, Unit Testing
- **Soft Skills:** Problem-solving, communication, teamwork, time management

PROJECTS

Personal Portfolio Website

- Developed a personal portfolio website to showcase projects and skills.
- Implemented responsive design and interactive features to enhance user experience.
- Integrated a contact form with email notifications using a serverless backend.

Task Management App

- Built a full-stack task management application allowing users to create, update, and delete tasks.
- Designed and developed RESTful APIs for task management and user authentication.
- Utilized React for a dynamic front-end experience and MongoDB for data storage.

Ecommerce clothing Website

- Demonstrated proficiency in both front-end and back-end technologies, utilizing frameworks like React for user interfaces and Node.js for server-side logic, ensuring a seamless user experience and robust functionality.
- Implemented and optimized a relational database (e.g., PostgreSQL or MySQL) to handle product listings, user data, and transaction records, employing effective schema design and query optimization for performance.
- Designed the front-end with HTML and CSS for a clean and intuitive interface.

WORK EXPERIENCE

Self-Employed

Jul 2024 - Present

Freelance Software Developer

remote

- Developed custom software solutions for clients, including websites and applications, which improved client satisfaction and streamlined their business operations
- Provided ongoing support and maintenance for various software solutions, ensuring high availability and reliability for client systems
- Participated in code reviews, testing, and documentation activities, which enhanced code quality and facilitated better team collaboration

Board of Education, Charleston Wv

Oct 2023 - Present

Information Technology Specialist

- Analyzed, tested, and evaluated existing network systems, such as LAN, WAN, and cloud networks, improving system reliability and performance
- Repaired various IT equipment using time management skills, ensuring minimal downtime and maintaining operational efficiency
- Collaborated with team members using Agile methodologies to solve complex IT problems, enhancing team productivity and project outcomes

Frontier Communications, Kanawha City WV

Sep 2022 - Jan 2023

Cable splicer

- Collaborated with a team to complete cable splicing tasks, ensuring timely project completion and improved network reliability
- Installed modems and configured dedicated IP addresses to enhance WAN and LAN connectivity, improving customer network performance
- Spliced fiber cables using precision tools to ensure high-quality connections, contributing to improved data transmission efficiency

UPS

Jan 2019 - Jan 2022

Package Handler/Belt Supervisor

- Oversaw the belt operations, ensuring efficient package flow and minimizing delays
- Sorted and placed boxes accurately according to their designated numbers and trucks, improving loading efficiency

EDUCATION

West Virginia State University, Dunbar WV <i>Bachelor of Science, Criminal Justice</i>	Jan 2021
Bridgevalley, Montgomery WV <i>Associates of Science, Biology</i>	Jan 2019
